The essentials of imaging

magicolor 8650DN

Your colour pro

Colour workgroup printer 35/35 ppm

magicolor 8650DN

Colour pro

The magicolor 8650DN is an exceptional A3+ colour laser printer designed for medium sized organisations and creative departments in need of a premium colour solution. In addition to being creative, it also provides speed and a professional attitude to any department. With formidable media flexibility and a wealth of finishing solutions, the magicolor 8650DN allows you to keep a close eye on your printing costs.

➔ Discover the power of printing

Massive print jobs can be completed at a top speed of 35ppm, making the magicolor 8650DN ideal for graphics and prepress environments that demand fast and professional quality colour printing. Combine this with 100% paper duplex productivity, add the power of the latest proprietary Emperon™ controller and a PowerPC® 1 GHz processor and back it up with a 1 GB memory to achieve continuous high-volume output.

- Staple finisher and saddle kit for automatic booklet creation
- 2x500-sheet lower paper feeder

- 2x500-sheet lower paper feeder

- Staple finisher for up to 1,200 sheets output and stapling up to 50 sheets
- 1x500-sheet lower paper feeder

- Staple finisher, output tray and mail-bin unit for separation of prints into 7 mailbins
- 2,500-sheet lower paper feeder

→ Give extra dimension to your colour prints

The magicolor 8650DN's colour printing is not only extremely fast, image quality is also astonishingly detailed. Konica Minolta's proprietary Simitri™ HD polymerised toner in combination with PhotoART 19200 contone technology printing at 600 x 600 x 5-bit enables razor-sharp picture detail and smoother colour gradations. 5 bits for each pixel translates to more colours produced for every pixel. The extra bit within each pixel, further improves the reproduction and readability of fine lines and thin characters. ICC profile support enables easy uploading of profiles ensuring more precise colour output. In short, with the magicolor 8650DN images and colours are cleaner and more vibrant!

→ Save when and where you can

When printing internal documents, the magicolor 8650DN's toner economy mode can conserve up to 50% of toner. Its convenient auto-colour recognition function reliably distinguishes between colour and black-and-white, printing in colour only where necessary. As an extra saving feature you can also programme limitative access rights for colour printing so that only designated users can print in full colour.

→ Ensure next-generation processing and compatibility

Guarantee that your printing operations will be compatible with the latest document processing standards. The magicolor 8650DN's state-of-the-art Emperon system is equipped with native XPS support ensuring compatibility with a range of printing languages. (PostScript®3™ and PCL®6), operating systems and business applications. Print quality is more accurate and document sharing across networks is improved.

→ Enjoy the art of creative finishing

Take creative control of your in-house printing with the magicolor 8650DN and create a bigger impact with custom, high-impact promotional materials. The magicolor 8650DN allows you to produce commercial quality reports and booklets with the help of the automatic duplex unit and optional staple finisher. Its impressive media flexibility and wide choice of finishing options make it is easy to step up the refinement level even more:

- The duplexer and all feeder handle paper up to 256 g/m²
- Up to 271 g/m², labels, OHP, etc. via manual feed tray
- 1.2 m-long banners and other oversized formats
- Offset sorting function
- Optional hole punching and stapling
- Booklet-option for saddle-stitched & folded booklets
- Optional mail-bin unit for separate printing output

A4 format

297x1,200 mm

→ Get creative with paper options

Rely on the magicolor 8650DN's large paper input capacity to ensure you complete the biggest print assignments with ease. With a standard capacity of 1,150 sheets (2x500-sheet and a 150-sheet manual feed tray) that can be extended with a variety of paper options to a maximum of 3,650 sheets.

The magicolor 8650DN is your colour printing partner in which the best of speed and productivity meets the wonders of creativity.

KONICA MINOLTA

Technical specifications

Processor	PowerPC® MC7447 @ 1 GHz, 64 BIT
Print speed (ppm)	35 colour / 35 monochrome
Resolution	PhotoART 19200 (600 x 600 x 5-bit contone)
Duty cycle	up to 150,000 prints per month
Memory	1 GB
Standard interfaces	Gigabit Ethernet (10/100/1000BaseTX) / USB 2.0
Media sizes	<ul style="list-style-type: none"> • A3, A3 Wide, A4, B5, B5 (ISO), A5, A6, B6, B4, D8K, Ledger, Legal, Letter, G-Letter, Statement, Executive, Folio, UK Quarto, Foolscap, G-Legal, 4"x6", 12"x18", Custom (90-311 * 140-1200 mm), Com10, C5, C6, DL, Monarch • banner printing up to 297x1,200 mm
Media weight	<ul style="list-style-type: none"> • up to 256 g/m² - all paper feeder • up to 271 g/m² - manual feed tray
Media input	<ul style="list-style-type: none"> • standard: 2x500-sheet, 150 sheets manual feed tray • optional: 1x500-sheet lower paper feeder, 2x500-sheet lower paper feeder, 2,500-sheet A4 lower paper feeder, desk, banner tray
Media output	<ul style="list-style-type: none"> • 250-sheet (face-down) bin • 1,200 sheets optional staple finisher
Print media types	plain paper, thick paper, recycled paper, transparency, letterhead, envelope, labels, postcard and glossy paper
Optional configuration *	<ul style="list-style-type: none"> • staple-finisher: 200+1,000 sheets output, stapling of up to 50 sheets • 3rd output tray • mail-bin unit: 4-bin mailbox • saddle kit: centre-fold, booklet • punch kit: 4-hole punching • security chip: HDD data encryption • option connection board and USB host board: USB memory print, interface for authentication devices • biometric (finger vein) or IC Card authentication: user authentication, special secure print function
Operating system compatibility	<ul style="list-style-type: none"> • Windows® 2000/XP/XP64/VISTA 32/64 • Macintosh® OS9.2 / OSX 10.2,3,4 / OSX 10.4 (intel version) • Netware® 4/5/6
Colour control	SWOP, Commercial Press, Eurocolor, DIC, TOYO, Japan color, JMPA color, SNAP, PANTONE® Colour tables, ICC device profiles
