Samsung introduces the ML-1660/1665 – an ultra small mono laser printer with added convenience. Its compact, elegant design means it fits perfectly into the home or small office, no matter how limited the workspace. Clever built-in features like one-touch printing make the ML-1660/1665 smart, as well as easy to look at. And, with an extremely low noise level, rapid print speed and power-save button it assures maximum usability and efficiency.

Designed with aesthetics and user convenience in mind, the ML-1660/1665 offers a wide range of benefits, such as:

• One-Touch Printing – See it, Print it.

Samsung's unique one-touch Print Screen button is the quick and easy way to print the exact contents of your screen, without the usual format changes needed for printing content from sources such as web pages.

• Laser Technology

Using toner instead of ink-based technology brings efficiencies in itself, such as: longer lasting consumables and delivery of a smoother, crisper more consistent print out with less mess and waste.

• Easy Installation and Management

The front panel offers an easily accessible soft power button, for simple operation, and the USB 2.0 interface means easy plug and play installation across all the latest operating systems – including Windows 7.

Top 3 Reasons to Buy:

1

Ease of Use:

- Easy plug and play installation that enables instant productivity
- One-touch Print Screen button and AnyWeb print software for quick and easy on-screen printing
- Switch to energy-saving standby mode at the touch of a button
- Compatible with the latest technology platforms such as Windows 7 for integration with your existing infrastructure

2

Innovative Design:

- Small and compact, it fits neatly anywhere in your home or office
- Stylish, glossy, two tone or rich piano black colour design options

3

Efficient Performance:

- A powerful laser print solution with a surprisingly small total cost of ownership
- Toner consumables last longer with a high toner yield of 1,500 pages
- Consistent, durable output with no clogging and less mess
- Low power consumption means lower energy costs and a reduced carbon footprint
